1972. In addition, during the months of February and March, as well as part of April, many weekends and additional evenings were devoted to interviewing candidates for the Town Administrator and Town Engineer.

The new Town Charter, to be presented to the voters in January 1973, will relieve the Board from the responsibilities of Sewer and Water, Cemeteries, and Board of Health, and thus allow the Board to concentrate on procedures and policies.

Johnson Co. ASA Degree, Bentley College of Accounting and Finance.

Building Inspector—

WALTER C. ROCKWOOD, JR., Former Deputy Building Inspector in Walpole since 1957, effective July 5, 1972.

Advisory Board of Health

The Advisory Board of Health was enlarged from three members to five, as follows: Dr. Edward Sweeney, Mrs. Margaret Ginley, Dr. William DeGiacomo, Mrs. Jacqueline Hosfield, and Mrs. Marguerite Nichols. This group presented a complete study and report on Fluoridation, which was accepted by the Board, properly advertised, and after three months became a permanent and effective part of our health program. Proposed animal regulations prepared by the Town Administrator, were also submitted to the Advisory Group, after a public hearing had been held on them and many changes suggested by those at the hearing. After an intensive study and interviews with agencies and interested residents, the Advisory Group submitted amended regulations to the Selectmen. A public hearing was held on these regulations, and they are pending acceptance by the Selectmen at this time. The Board of Selectmen is most grateful for the help this group has given them during the past year.

Regulations—Procedures

The following regulations and procedures, along with the establishment of fees for same, were prepared by the Town Administrator and adopted by the Board:

1. Tow-Away Zone Regulations
2. Sewer Permits for Industrial and Commercial Use
3. Septic System Repair Permits
4. Street Opening Regulations
5. Water Availability Requirements and Well Procedures

Permits and License Fees

The following permits and license fees were either adopted for the first time or updated:

1. Beano Regulations and Fees
2. Cemetery Fees Established
3. Retail Food Store Permits
4. Parking Lot Permits
5. Gas and Electrical Fees Updated
6. Liquor Fees Updated and Prorated.

Some Firsts for the Board

Two land appraisals were obtained for the proposed purchase of the Walpole Country Club which was offered first to the Town for its use before the Country Club made their own final decision. Meetings were held with the Building Committee of the Country Club and with interested Boards and Commissions in the Town and a final offer was made in Sep-

tember, which was not accepted by the Building Committee. To date, the land has not been put up for sale to anyone else and is still a Country Club.

Another first was the approval of special entrance fees for the first Condominium in Walpole.

Our first Industrial Financing Development Bonds were approved for Bird-Johnson. Application and approval of modern traffic lights and signs were entered into under the TOPICS program, which should be installed within two years under a governmental funding agency. Joint purchasing with area towns was entered into with the purchase of police cars and salt for roads, and it is planned to continue this effort in other areas.

A revolving fund was established for the Police Department special assignments and overtime, whereby the Town will bill the company or individual needing police services, and proper controls were established.

A Permanent Building Committee for all future town buildings was approved at the Special Town Meeting in June, this committee to consist of a lawyer, an engineer, one member experienced in the field of insurance, one member experienced in financial management, a member of the School Committee, two members at large, with the Superintendent of Schools to be an ex-officio member.

Water Problems—Drainage

The Town was beset with many problems with water and water runoff due to one of the wettest years in recent times. An emergency water situation became apparent in South Walpole, early in the year, and a study was immediately undertaken to improve the pressure in that area. In the course of the study, however, it was apparent that the Town should enter into a larger program of water improvement not only in South Walpole but throughout the Town. The Town Administrator and Town Engineer, working with water consultants, brought in a complete program of water improvements throughout the town and this was voted by the Town at a special town meeting in November. The project will be under a bond issue.

Because of the wet season, drainage problems became more evident than ever. Studies were made of Brown Drive and Oak Street, Winter Street, High Street, and a restudy made of the Ponderosa Drive-East Walpole area. Articles on at least two of the areas have been prepared for the Annual Town Meeting.

Yet—and to the amazement of most—the Town remained under a water ban until late fall because of the need to shut down one of the Mine Brook wells until an improvement program could be started.

Other Items of Interest

Among other items of interest for the Town was that the Board recommended and the Town adopted and funded a program for the retarded workshop program in Area Group 5, of which Walpole is a member, and also adopted and funded a program of Home Health Service in an area group.

After many meetings and study, the Board recommended and the Town adopted and voted \$1000 towards the establishment of an 11-town Regional Solid Waste Disposal Study Commission. The Board is continuing its own study of our Sanitary Landfill site and how to extend the life of it.

After many years of service as Inspector of Animals from 1934 to 1972, Dr. Francis X. Maguire resigned the post, and Dr. Gordon G. Goodband accepted it. We are most appreciative of Dr. Maguire's many years of service and dedication to this position.

Mr. Eino Kivi was appointed Deputy Building Inspector by the Building Inspector and approved by the Board. Charlie George acted as Deputy Wiring Inspector for many years, but finally resigned in June to leave Walpole and settle in another state. It was only then that it was found out that Charlie had never accepted any money for doing this work, and so it was necessary to establish a retainer before appointing Steele Lightbody to the position. Gratitude is a small word to express how we feel about Charlie's service.

Several meetings were held with the Norwood Board of Selectmen before a final agreement was reached for the Town to use the Interceptor Sewer laid in 1961 on the Norwood-Walpole line. Our Town Counsel was instrumental in bringing about the successful conclusion of these negotiations.

Before concluding this report for the year, the Board wants to put on record its appreciation and thanks to two individuals who kept the administration of the Town going while we sought to fill the positions of Town Administrator and Town Engineer. Edward O'Neil and George Thibault gave many hours and a great deal of effort went into the assistance they gave the Board at that time.

Town Counsel

ALPHONSE W. QUERY, JR.

The year 1972, as to the office of Town Counsel, was an active year wherein the Town was involved with modern, everyday problems as they relate to a growth community.

We are engaged in litigation in Wrentham District Court, Norfolk County Superior Court, Suffolk County Superior Court and the Massachusetts Supreme Judicial Court. As was reported last year, I am again pleased to report to the Town that but for one case, there is no litigation pending against the Town wherein there is any financial exposure.

During this past year we drafted a new Charter for the Town and continued to work out solutions to problems arising under new areas of law; more especially, in the field of ecology.

As has become customary in my Annual Report, it is with deep gratitude that I extend my appreciation to all officials, committees, employees and citizens-at-large for their kind cooperation, understanding and assistance during the year.

ROBERT S. BOCWINSKI

Assumed duties of Town Administrator on May 8, 1972.

Former assistant to the Town Manager and Town Accountant in Plainville, Conn.

Holds BSBA degree in accounting and economics from New England College, Henniker, N. H., and master's degree in public administration from the University of Hartford, Conn.

Town Administrator

ROBERT S. BOCWINSKI, *Town Administrator*

I assumed the responsibilities of Town Administrator for the Town of Walpole on May 8, 1972. Since that time, I feel the Town has made strides in various areas, in particular, Public Works and Public Health. The items of major interest and of major importance are as follows:

1. Completion and operation of the Old Post Road Standpipe which has augmented water pressure available to residents within the High Plain Street area.
2. Authorization by Special Town Meeting to provide 2.5 million dollars for construction of various water improvements in the Town of Walpole.
3. Major resurfacing program for various Town streets amounting to 47,868 feet, or 9.07 miles, which is approximately 10% of all Town Roads. (See Highway Foreman's Report for further details.)
4. Reconstruction of a portion of Winter Street with funds provided under State aid.

5. Repaving and additional improvements on Washington Street, in particular, repavement from Stonehill Terrace to Willow Street. Guard rail was also installed on Washington Street opposite School Meadow Brook Well field area and at the intersection of Washington Street and Common Street.
6. Continued extension of water mains and further improvements to the water system, in particular, construction of an additional well within the School Meadow Brook Well field area.
7. Improvements to the water system in South Walpole area which has improved water pressure to the residents within South Walpole.
8. Development of our limited recreation facilities to provide for a mini-park at the Center Pool.
9. Installation of sewers on High Plain Street, Harding Road, Pontiac Road, Woodard Road, Smith Avenue and Alton Street.
10. In the area of Public Health, the Board of Selectmen, acting as the Board of Health, adopted regulations regarding onsite septic disposal systems and repair to onsite disposal systems. Adoption of these regulations has afforded a greater degree of protection to the individuals who will become future residents of the Town. In addition, the Board of Selectmen has also prepared a final draft of regulations dealing with domesticated animals. The purpose being, to avoid health nuisances which may be created by animals in residential areas.

The past eight months have been most enjoyable and I take this opportunity to thank the Board of Selectmen for their cooperation and support and I look forward to the continued relationship which we have enjoyed in the past. I would also like to thank all Town employees for their cooperation, in particular, Mr. Edward T. O'Neill Jr., Assistant Town Administrator. He has proven to be of invaluable assistance to me and has served the Town of Walpole faithfully.

I look forward to the next 18 month period with great expectations. I certainly hope with the newly adopted Town Charter, the 18 month budget and the articles proposed for the 1973 Town Meeting that additional public works projects and/or improvements might be made during the coming year. In my estimation, the three most important areas of concentration in the coming 18 months will be continued sewer development, water development and economic growth via industrial and commercial development. I will lend my assistance and focus my efforts in these areas.

Public Works Department

HAROLD E. WILLIS, *Superintendent*

This Department has supervised all functions of the Public Works Department which includes the Highway, Water and Sewer, Park and Garage and Maintenance of all vehicles.

The Highway Department had an unusually busy year due to drainage problems caused by the high water table. Some of these were temporarily solved and others are awaiting funds to repair or replace certain problem drains.

Approximately 8 miles of roads were sealed with asphalt and stone after pre-leveling by patching with type I bituminous concrete. Washington Street was repaved with No. 1475 to Willow Street with a 2½ inch layer of type I bituminous concrete.

A portion of Winter Street near the Norfolk line was paved. This is a temporary job as we hope to have funds available for widening, drainage, etc. for this street soon. All roads were patched where needed.

The Water Department completed all regular maintenance work, installed services and repaired leaks as needed. The High Pressure System in South Walpole was extended to take in all of the area as far as the corner of Main and Winter Streets. This results in far better pressure for the residents of South Walpole which has been a problem for many years. All blocked sewer lines were cleared and regular maintenance with chemicals of all flat lines was carried out.

The new High Pressure System in the High Plain Street area was put into operation at year's end. The new standpipe was filled and this system will now keep a constant high pressure on that area, Route 1 and upper Old Post Road as well as High Plain Street to Washington Street to and including Ponderosa Lane.

The Park Department carried on as usual with an intensive Mowing Program due to heavy rainfall. We now mow and maintain approximately 90 to 95 acres of lawns and athletic fields, etc. All dead trees were removed and new trees planted. Leaf pickup was late due to heavy rains.

After 24 years of faithful service, Edward Culverhouse retired from the Water Department. In good weather and bad his vast knowledge will be sorely missed.

Detailed reports from individual departments follow.

Public Works Garage

BENNETT GOVE, Foreman

Lubrication, maintenance and repairs were performed on all 55 D.P.W. vehicles, including Water, Park, Building Repair, Administrative, Engineering, Highway and Civil Defense units.

All portable generators, compressors, ditch pumps, tractors, lawn mowers and attachments were maintained and lubed.

An engine overhaul was completed on one ditch pump and valve jobs were done on one sewer rodder and one pick-up truck. Transmission overhauls were performed on three units and a torque convertor repaired

on one loader. One differential unit was rebuilt, 2 clutch jobs were done and four brake jobs.

Sand blasting and repainting were done to the sander units, snow plows and loader buckets.

Welding and repairs were made on all ice control units. Cutting edges were installed on all snow plows, including sidewalk tractors and loaders.

The sanitary landfill Caterpillar tractor was lubed and maintained and repaired.

The John Turco and Washington Street stations diesel and natural gas engines were maintained weekly along with all auxiliary equipment.

The equipment purchased in 1972 was inspected and checked to the town's specifications and serviced for use.

36' of 12" Pipe, one manhole and one catch basin were installed on Front Street.

1800' of Winter Street was excavated and rebuilt and 332' of 12" R.C. Pipe and 2 Catch Basins and manholes were installed with State Aid provided by Chapter 768 of the Acts of 1969. This project will be completed in the Spring of 1973.

Maintained and rodded street drains where needed.

All catch basins on public ways and schools were cleaned (1033).

All brooks and runoffs were maintained.

All streets and schools were swept.

The sign crew installed 180 posts and signs in South Walpole due to the New England Patriots' football games. A parking problem existed prior to this installation. All other street and miscellaneous signs were completed. The greatest expense of the sign department is usually due to vandalism, such as broken sign posts, theft and defacing signs.

New guard rail was installed at Clark's Pond (400'), and on South Street (200') and on Washington Street (150').

The following streets (graveled) were scraped and graded: Davis Street, Alton Street, Turco Drive, Victory Road, and Pemberton Street.

All sanding, salting and plowing and snow removal were carried out when needed.

Park Department

JAMES WALSH, *Temporary Assistant Superintendent of Public Works*

All diseased elm trees (12) were removed from town property. The sanitation program was continued. (Dormant and foliage spray plus removal of all deadwood,) in remaining elm trees.

Fifteen Chinese elms were removed on Killeen Road and 26 on Woodland Road. These trees had reached maturity and were in an advanced state of decline.

Twenty-five dead or hazardous sugar maple trees were removed. Thirty maples had the hazardous dead wood removed.

During the Spring and Fall Tree Planting Program, 40 trees were planted.

All lawns, playgrounds and athletic fields were mowed, fertilized and maintained—approximately 95 acres.

With tractor and sickle bar, all weeds were mowed and all brush on all roadsides as well as on fire lanes in the Town Forest.

A total of 1035 man hours were employed in picking up leaves.

Two acres of trees were felled for the expansion of the landfill site. The landfill was manned and operated.

Snow was plowed off driveways, walks, parking lots and play areas at 11 schools and 2 libraries. Sidewalks were plowed and sanded, and assistance was given in snow removal.

The ice at Memorial Pond was plowed, planed and maintained.

Three town owned cemeteries and 2 burial grounds were maintained, also 2 swimming pools. The wading pool was cleaned and maintained.

Cemetery Department

STEVEN HUNTRESS, *Superintendent*

Work has begun to expand Maple Grove Cemetery and will continue in 1973. Improvements at the Plain Street Cemetery in West Walpole were completed.

Vandalism at all Town Cemeteries continues to be a major problem with a great number of man hours and dollars being spent as a result.

During the year, 12 lots were sold at Maple Grove and Rural Cemeteries. There are a combined total of 835 lots available at Maple Grove and Rural.

Also during 1972, new Rules and Regulations, new deeds and a new schedule of fees were established for all Town Cemeteries. The adoption of such rate revision was to more adequately finance current charges, thus providing for a self-sustaining operation.

Building Repairs

JAMES CLERICI, *Foreman*

The following work was completed during the year:

Town Hall—Painted 2 corridors and 3 rooms.

Turco Field—Replaced seats in grandstand. Installed partitions in women's toilet.

Wire Inspector

CHESTER L. DONNELL, *Inspector*

STEELE LIGHTBODY, *Deputy Inspector*

During the year 1117 inspections were made.

All complaints concerning electrical installations were investigated and taken care of.

During the year Charles George resigned as Deputy Wire Inspector because of moving out of state. I take this opportunity to thank him for his cooperation and excellent performance of investigations which he unselfishly gave when called upon. The town has been very fortunate over the years to have had a man of his caliber and willingness to serve as Deputy Wire Inspector.

Steele Lightbody has been appointed Deputy Wire Inspector to replace Mr. George.

Plumbing Inspector

ROBERT J. HEAVEY, *Inspector*

During the year, 335 plumbing permits were issued.
All complaints were investigated.

Gas Inspector

FREDERICK C. MATTSON, *Inspector*

During the year, 261 gas permits were issued.
All complaints were investigated.

Test results were reported to dealers and complaints of consumers were investigated.

Mental Health

The Medfield-Walpole-Norwood Mental Health and Retardation Area Board of the Department of Mental Health consists of 21 citizens appointed by the Governor. They act as representatives of their communities regarding the comprehensive delivery of mental health and retardation services.

The Area representatives from Walpole are: Mrs. Nicholas Grugnale, 49 Lake Avenue, 668-1094; David Meadows, 183 High Street, 668-6569.

For questions or suggestions regarding mental health and retardation services, call the above Area Board representatives or the Area Office in Medfield, 359-2909.

DR. FRANCIS X. MAGUIRE

Dr. Maguire served the town for 38 years as animal inspector.

He retired from town service on March 23, 1972.

Inspector of Animals

GORDON G. GOODBAND, D.V.M. *Animal Inspector*

All premises where livestock is kept have been visited and inspected and comply with the regulations of the Massachusetts Division of Animal Health.

All new animals, from outside the state, entering herds, have been have been inspected.

All reported dog bites have been investigated and quarantine regulations carried out.

No positive cases of Rabies were found.

Health Officer

HAROLD M. GRODEN, M.D.

As medical science continues to solve problems of diseases in treatment and prevention, it would appear that mankind has sowed dragons' teeth which have sprung up like the self destructive warriors of Cadmus.

The greatest tragedy of Man is his blind and deaf repetition of history. Yet the most meaningful and the most consequential battles are not waged on the blood-soaked ramparts and corpse-strewn fields of war, but rather

in the minds and souls of our youth who are betrayed by the aberrant philosophic maundering of amoral hedonists.

An age-old counsel has been: "Know thy enemy", but as we have done so on one "Front", we have failed to do so on another, with the result that we are being staggered by an insidious foe that has infiltrated every level of our society.

As we fatuously congratulate ourselves on the conquest of such formidable foes as small-pox, diptheria, whooping-cough, tetanus, malaria, bubonic plague, poliomyelitis, which have decimated populations since the beginning of Time, we have purblindly ignored the epidemic spread of the greater threat, the loss of soul.

The mightiest empires with the most awesome military forces have one by one vanished from the face of the world, leaving but a rubble of rock as gravestones, destroyed from within by corruption, licence, and vice.

As physicians we only treat symptoms when we are ignorant of the cure, or when the disease has advanced to the stage beyond cure.

Our 'Clinic' is Walpole and every other "Walpole" throughout the world, and the essence of our foe is not bacterial nor viral, but social, and the treatment is not antibiotic nor surgical, but educational and charitable.

For the hand of immorality has opened Pandora's Box and has loosed promiscuity with its handmaidens—venereal disease and illegitimate pregnancy—, parental irresponsibility and indifference with the sequellae of broken homes and shattered youth.

I salute the Walpole Hotline for their cognizance and dedicated action.

Walpole First Aid Paramedic Association, Inc.

The past year has witnessed the rise of a new organization within the town dedicated to the preservation of human life. The Walpole First Aid Paramedic Association is the outgrowth of an idea conceived by Edward W. Peatfield, Medical Technician for the town, who felt that such an association would benefit the community.

Under Mr. Peatfield's direction a paramedic training program was started in July 1972. Over forty public-minded citizens began their training in the various aspects of First Aid and Emergency Medical Care, such training covering many areas of rescue work and related principles. The newly organized paramedics were instructed in emergency child birth, cardiopulmonary resuscitation, control of bleeding, fractures and dislocations, drowning, electrocution, poison, the mentally disturbed patient, and numerous other areas of concern to the emergency worker in the paramedical field.

Once formed, the association elected its officers and established its own guidelines. The officers are: John Sullivan, president; Donald Weber, vice-president; Betty Wentworth, secretary; Judith O'Rourke, treasurer; Patricia Pendergast, Leonard Jackson, and Arthur Wentworth act as charter members. The association has been incorporated under the laws of Massachusetts.

The association will act as another town unit, to be of service to the town when an emergency is declared and to answer the calls of private groups and individuals who need medical aid attention. Each paramedic is uniformed and well trained to handle emergency situations. A continuous program of training is still enforced on Wednesday evenings, and lectures are being conducted by professional people including doctors, nurses, lawyers, and those within the fields of electricity, drugs, communicable disease, public welfare, etc.

The paramedics are delighted to be of service to the community and hope for continuous support of their ideals. The public is invited to attend the training series on any Wednesday evening at Blackburn Hall between the hours of 7:30 and 10:30.

Recreation Program

DOMINIC A. BALDASSARI, *Director*

The recreation programs for 1972 have provided varied activities for all age groups. The programs, conducted throughout the winter months, included boys' basketball, where basic fundamentals were taught. Basketball for adults was played at the High School gym every Wednesday evening and volley ball and badminton were also available at the same time.

A music program for beginners, consisting of guitar lessons, was conducted, both during the winter and summer seasons, with much interest displayed.

Figure skating lessons were provided during the Fall and Spring. The Walpole Youth Hockey Program was available to Walpole youngsters through a private organization. The competitive Swim Team, which practiced at the Center pool, enrolled a record number of participants. Through the efforts of some civic-minded citizens we will again have a winter program at the Wrentham State School Pool.

Tennis clinics and tournaments were held during the summer months for all children and adults. Winter tennis clinics were conducted for adults at the East Junior High School gym. This class instruction started in November and concluded in February. Tennis playing was offered to the more experienced players from November to April at the West Junior High Gym.

The summer swimming program, conducted at the Center and South pools consisted of pre-school children's lessons, beginners, junior and senior life saving classes, all of which were filled to capacity. Adult swimming under the lights was once again very popular being held at the Center Pool each week day night except Wednesdays from 8:00 p.m. to 9:30 p.m.

The Walpole Programs operated Monday through Friday from 9:00 a.m. to 4:00 p.m. during the summer months. They offered a wide variety of activities for boys and girls. This year a boys' Soccer Program was initi-

ated and proved a great success. The program began in July and continued through September for boys 10 through 14.

The Recreation Director and Recreation Committee express sincere appreciation to the townspeople and town officers for their cooperation and encouragement during the past year. It is hoped that as the growing needs of the town dictate, the Recreation Director will be able to continue to provide a wide and varied program of which the town can be proud.

Advisory Board of Health

MRS. MARGARET GINLEY, *Chairman*

DR. EDWARD A. SWEENEY

DR. WILLIAM DIGIACOMO

JACQUELINE HOSSFELD

MARGUERITE NICHOLS

The Advisory Board of Health has assisted the Board of Health during the past year in the preparation for, and the announcement of the fluoridation of the water supply. As this measure is now in the process of implementation, the newly appointed Board of Health will be responsible for its initiation.

The Advisory Board has aided in two other matters after its ranks were enlarged with the appointment of three new members, one to fill a vacancy as the result of a resignation.

The first of these concerned determining the need and funding feasibility of a proposal "Homemaker Service" which would eventually be able to provide trained homemakers for families when without such aid the family might be forced to break up and seek institutional or custodial care. This proposal was accepted by the Board of Health on our recommendation and is currently funded for one year to initiate organizational activities of the regional group "Homemakers, Inc.", a non-profit organization.

The second area in which our advice has been solicited has enabled revising the regulations concerning the keeping of animals within the town. After conferring in depth with many citizens interested in the subject, our recommendations have been presented to the Board of Health for their action.

In view of the impending appointment by the selectmen of a separate Board of Health, we have recently been inactive.

During the year, the following men were appointed as Permanent Full Time Police Officers: Owen Forrest of Foxboro, Mass.; Alfred Shaw, formerly of Norfolk, Mass., and Charles Kelly of Norwood, Mass. Under a new law, a police officer is not required to maintain residence in the town, but must reside within ten miles from the boundary lines of Walpole. We congratulate these men on their appointment.

In the past year, there were many good police jobs accomplished, both in life saving, in the apprehension of criminals and in the field of the prevention of crimes and/or other illegal acts.

For an example: In life saving, two lives were saved by police officers applying "mouth to mouth resuscitation" and two persons were rescued from burning buildings by police officers. (On one occasion they were assisted by a "good" citizen.)

In the apprehension of criminals: Three criminals were trapped inside the United States Post Office building in Walpole Center while they were "torching" the Walpole Post Office safe. They were successfully apprehended and arrested by the police without anyone being seriously injured.

OWEN FORREST

Appointed Permanent Officer April 1972

CHARLES KELLY

Appointed Permanent Officer July 1972

ALFRED SHAW

Appointed Permanent Officer July 1972

A daring daytime armed robbery was committed at the Howard Johnson Restaurant on Route 1 in Walpole and through good persistent police know-how and investigation the robbers were "made" in less than a week. One now is in jail and there is an outstanding warrant on the other.

A person who committed assault and battery and rape in Walpole was apprehended in less than a week by good police work.

A group who had broken into one of our public schools was apprehended inside the building before serious damage or other illegal acts could be accomplished.

These are but a few of the many apprehensions and arrests made by your police officers.

On police prevention, which is our number one job, many acts of crime, acts of violence and other illegal acts that were rumored or brewing were prevented by police intelligence, stakeouts, rapouts, and extreme police restraint, when such action was needed.

The crimes that were most prevalent in Walpole during the year were breaking and entering, illegal drug acts, vandalism and other acts of property destruction, committed by undisciplined and irresponsible persons who are a burden to merchants and the taxpayers in the town.

We have continued our drug surveillance and investigations with many hundreds of costly hours spent on this program. We are still seeking answers and we continue to apprehend drug pushers and other drug violators, but we are also continuing our program to aid and assist youngsters and parents who have a drug problem. In 1972 there was a slight decline in "hard core drugs" but the use of marijuana shows no decline.

This past year an "Emergency Care Program" was set up and sponsored by the Walpole Police Department for citizens who were interested in a new technique of the administration of first aid. The response was gratifying, and even more gratifying is that, at this writing, two citizens who attended this class have saved lives through the application of "mouth to mouth" resuscitation, this knowledge having been acquired by attending this police program.

In the past year nine police officers attended colleges, taking courses that are police-related and they are receiving credits for it. Many other police hours are spent at various seminars and meetings that were sponsored by the F.B.I., the District Attorney's Office, the Attorney General's Office, and at other academies and schools.

At this writing one officer is attending the State Police Academy, taking a twelve weeks course in the police science of photography and fingerprinting. When he becomes certified, he will, in turn, instruct other members of the Department.

For the benefit of the police officers, a "revolving fund" has been set up, where outside details for the police are paid by the contractor to the Town and in turn the Town pays the police. This has been working well.

Under this new plan the town also realizes a certain percentage from the contractor.

Another benefit to the police was the awarding by the town and the adoption of a so called 4-2-4 working schedule (amounting to a 37½ hour week). This has been a tremendous morale booster for your police officers who are grateful to the townspeople for it.

In 1972 we applied for and were accepted to participate in the TOPICS (Traffic Operations to Increase Capacity and Safety) program. This provides for an overall study under, and by expert traffic engineers as to what the needs are in the Town of Walpole, including traffic lights, safety islands, street markings and signs, re-routing of traffic patterns etc. The first of three phases has been completed and if all phases are adopted and approved, all implementations recommended will be installed and/or erected at no cost to the town.

The traffic and parking in South Walpole Center and the immediate area was somewhat alleviated by the adoption of the "Tow-Away law." As a result, many signs were erected in the above area by the Administrator's Office, at full cost to the town. This problem occurs during Schaefer Stadium events. The town does not realize anything from these events but it is costly to the town for traffic control and we continue to receive complaints from the citizens of South Walpole as to the behaviour of some football fans walking through South Walpole en route to the stadium. The overall problem is still under study.

In the past year Walpole Police Officers were publicly commended for acts of courage, in risking their lives to save other lives. Others were commended for other good police work, such as apprehending criminals, often right at the scene and often the criminals were armed. Officers are doing good "routine police chores" such as traffic patrol, the checking of vacant buildings and homes, assisting elderly persons, and on the constant lookout for the safety of children and other citizens. The officers continue to do a good job in the preparing and the presentation of cases in court, and the District Attorney and court judges have commented on this.

We realize that we have room for improvement, and we are working at it, as our role in law-enforcement has drastically changed in the past few years due to many factors, such as: the vast drug problem, Supreme Court decisions, the allowed permissiveness, the protestors (lawful and unlawful) the extremists, the revolutionists, the breakdown between youngsters and oldsters, it goes on and on, making the police job more difficult. We must, however, constantly work at these new problems through education, intelligence, through new means and methods of new techniques, science in both intellect and equipment. The police are in a unique position. We must uphold the laws as written, to protect everyone's freedom, given to all under our Constitution; we must protect the weak and the strong, the lawful and unlawful, for if we fail, all society will fall and we will not recognize the way of living and the form of government that we have the distinct privilege of living under and enjoying today.

The following are some statistics taken from the 1972 Police Blotter, as compared to 1971 figures:

The year saw several changes in personnel. Saddest of these was caused by the sudden and untimely death at the Norfolk State Prison Colony of Private Alfred Baranowski of Company 2. Private Baranowski completed 25 years of service on July 31, 1972. He responded to his last fire call on July 30th. We extend our deepest sympathies to his wife and children.

Company 1 and Company 2 each lost a man during the year due to the resignations of David McNaught, Company 2 and Robert Mattson, Company 1. Although Dave had been on the department a comparatively short time, Bob was appointed a call man in March of 1949 and was a faithful member in both interest and attendance.

We are happy to welcome three new men to our ranks this year of 1972. David Silvi and Sanford Hamilton received their appointments as call men to Company 1 early in the year as did John Macchi whose appointment was to Company 2.

Training of the firemen continues as usual—a training session being conducted every meeting night. In addition, a number of the men attended a Fire Seminar in Wrentham in December. Assistant Chief Donnell attended monthly meetings of the Massachusetts Institute of Fire Department Instructors and Chief Gardner attended the New England Fire Marshall's Seminar, the New England Fire Chief's Conference, and the International Fire Chief's Conference. These various group meetings serve to keep both chiefs abreast of current methods of fire control and prevention.

Although we had several major building fires in 1972 and were called to the Walpole State Prison and the Norfolk State Prison Colony several times when riot conditions prevailed at these institutions, this was a comparatively quiet year fire-wise due to the fact that we had a rather wet year and the woods were dry for short intervals only. Unusual but nice!

Again, thanks are due to all of our Call Firefighters and our Town Officials for expended efforts on behalf of the Department in 1972.

Fire Alarm

One new master fire alarm box was connected to our system at the new Bird-Johnson Company plant on Norfolk Street. There are now 160 boxes.

A total of 2,806 manhours were expended on maintenance, testing, repairs, inspections and records, 695 manhours in emergency work and changes in our construction due to expansion of the utility company plant. In addition, there were 38 manhours required on street widening projects and 8 manhours for new box construction. The increase in maintenance, inspection, pole transfer work and related repairs resulted in fewer interruptions and troubles on our system during the year. It also reflects the

growth of the town and our responsibility to maintain an alarm system for the protection of persons and property.

The Annual Town Meeting approved the purchase of a new hydraulic operated aerial ladder and line truck for use on our fire alarm system. This truck was delivered in September and was immediately put in service. The new truck replaced a 27 year old hand-operated ladder truck, the usefulness of which exceeded our expectations not only on fire alarm maintenance work but at other emergencies where additional lighting is required.

A total of 367 alarms were sounded to call department personnel during the year.

Department of Weights and Measures

ALFRED B. COREY, *Inspector*

Units tested	304
Units sealed	296
Units adjusted	75
Units condemned	2
Units not sealed	6
Adjustment fees charged	\$2.00
Fees collected and paid to town treasurer	\$748.40
Fees Unpaid and Owing	\$14.00

Surprise spot-checkings of essential food items totalled 350 units. The results were: 247 correct, 22 under, and 81 over measurement.

This has been a year of re-evaluation of equipment and needs. The expense budget was of necessity increased but is being reduced for the upcoming year.

Among the larger items and in order to provide better service, a 5 gallon Seraphin Test Can and a Metric Weight Set were purchased. The existing test weights and measures were cleaned and brought to the laboratory of the State Division of Standards for certification. This official certification of weights had not been done for years. In addition the oil tank prover was tested.

Veterans' Services

RICHARD J. CARBERRY, *Director-Agent*

The year saw an increase in all the activities of the Department of Veterans' Services.

Fifteen Widow and Children's Pensions were obtained for survivors of deceased veterans, four Service Connected Compensations and six Non-

Service Connected Pensions were awarded to Walpole veterans with the assistance of this office.

There was an increase in applications in the categories: Education Benefits, Home Loans, Bonus Applications, Insurance, Change of Address, Request for Change of Discharge, Hospital Care, and Annual Income Questionnaire.

A total of 51 veterans and their families received assistance under Chapter 115 of the General Laws of Massachusetts, in the amount of \$54,136.48. This is an \$11,000 increase over 1971, due mostly to the increase in the cost of living and the high price of services and materials.

During 1972, \$6,447.88 was recovered from liens that were placed against insurance company claims.

There are indications that the cost of this assistance program will rise again in 1973.

Planning Board

GERARD E. COMEAU, *Chairman*

ROBERT B. BOYD, JR., *Vice-Chairman*

JOHN J. DUFFY, *Clerk*

JOHN A. COSMAN

JOHN P. DWYER

In addition to its regular meetings, the Planning Board held eleven special meetings and fourteen Public Hearings, six for subdivisions, and eight for re-zoning. Meetings were also held with the Appropriation Committee, the Board of Selectmen, and the Conservation Commission on matters of mutual concern.

Along with their duties as members of the Board, the members were active on the Zoning Recodification Study Committee with Charles E. Downes as Planning Consultant, and Mr. Boyd was appointed as a member of the Massachusetts Area Planning Council (MAPC).

Paul C. Gay, due to an increase of personal demands upon his time, reluctantly resigned from the Board. In August, the Board of Selectmen and the Planning Board appointed John P. Dwyer to replace Mr. Gay.

Our secretary, Mrs. Dorothy Vannah, resigned for personal reasons, and Mrs. Helen Farinacci was appointed to the position.

The Board wishes to encourage the townspeople to attend their meetings so that they can better understand its governmental procedures and operations.

The Board of Appeal meets the first and third Wednesday of each month. Meetings were held in the Selectmen's Room, in the Town Hall.

During 1972, the Board acted on sixty-two advertised hearings. Twenty requests for site plan approval were received and granted; ten special permits requested and granted; thirteen requests for variances received—eight granted and five denied; nineteen miscellaneous requests received—ten granted and nine denied.

The Board sought advice from Town Counsel on several occasions and were represented by him in Court proceedings.

The Industrial Commission welcomes all citizens to its open meetings held on the second Tuesday of every month in the Town Hall.

The office of secretary was held by Henry Brown from January to April, by Ronald Fortin from May to September and Thelma DeRosa from November to the next annual election of officers.

The Commission co-sponsored a rezoning article with Mrs. Betty Wirth to change 47 acres of her land from residential to limited manufacturing. This property was most advantageous due to its desirable location along Route 1-95 and its close proximity to Route 1. Incorporating facts obtained from previous years' investigation along with current on site inspection, engineering reports, and several meetings with other town

boards and officials, we presented this information to the town meeting members who in their wisdom passed this article with a vote of 94 in the affirmative and 14 in the negative.

The Commission attended meetings and public hearings relative to other rezoning articles considered by the town meeting and was prepared to make recommendations pertaining to each one.

The completion of a 1971 site fact review of all industrial land was presented to the Commission by Planning Consultant Charles Downe. Various areas of the town were assigned to Commission members for the purpose of an on-site inspection and evaluation to determine the potential for future development consideration. Upon completion of this study, a report will be made available to the public.

The Commission's continuing effort to keep in contact with existing local industries resulted in meetings with management personnel to determine what assistance could be offered by the Commission. The unfortunate fire of the Thermoprint Company gave us the opportunity to assist and aid in both temporary and permanent relocation in Walpole.

During the year the Commission met with representatives of Cabot, Cabot and Forbes, Nordblom and other brokers in an effort to evaluate industrial location potential. A general consensus among brokers and industry desiring to locate in town has clearly shown to us the land in the Route I-95 area to be most desirable.

In the continuation of our search for additional land along Route I-95, a study is currently in progress to determine whether additional land between the Wirth property and Route 27 should be rezoned to limited manufacturing.

Informal meetings have been held with land owners and area residents to obtain their opinions regarding rezoning. The Commission in its endeavors will continue to base its decisions upon what it feels to be in the best interests of the community as a whole and its broad development through the maintenance of a proper balance among such growth elements as residential, commercial, industrial and municipal.

Industrial Development Financing Authority

SAMUEL R. HOFFMAN, *Chairman*

GUY H. GIAMPAPA, *Vice-Chairman* NORMAN F. SELLERS, *Secretary*
EDWARD J. DELANEY, *Comm. Chairman* RICHARD F. CASHEN, *Treasurer*

The first request of this authority was received from the Bird-Johnson Company, Inc. of Walpole, for construction of a new assembly facility to be located on Norfolk Street. This building was planned to cover approximately 13,300 square feet of new manufacturing space. In following the required steps, your Industrial Development Financing Authority unanimously voted to proceed in assisting Bird-Johnson with the development of its project. The selectmen also voted to approve plans and recitals. After clearance with the various necessary boards and officials of the town, the request was presented to the Commonwealth of Massachusetts Industrial Finance Board and the Commonwealth's Bureau of Commerce and Industrial Development. At a meeting on June 12, 1972, at the Leverett Saltonstall Building, Boston, the board did consider and approve our applications for a revenue bond issue. This new building is now complete and in full operation.

At the time of this initial proposal from the Bird-Johnson Company, Inc., they informed us of the possibility that Bird-Johnson might wish to extend this project. This has now occurred, and Bird-Johnson has proposed such an extension to consist of an additional 17,150 square feet of manufacturing and office space. This additional proposal is now in the working stage and approval is expected early in 1973.

Housing Authority

ELIZABETH C. DENSBERGER, *Executive Director*

Fourteen scheduled meetings were held during the year.

The Authority is responsible for the operation and supervision of the state-aided low cost Housing for the Elderly Project at Neponset View Terrace, Walpole. This is a complex of eight buildings, consisting of sixty-four apartments, and a Community Building for the use of the tenants for recreational purposes.

The Authority applied for and received approval for the construction of an additional elderly housing complex in 1972 at the 1972 Town Meeting. The Authority is now in the process of seeking a site for this project that will comply with state requirements, and will win town approval.

After a site has been secured and all requirements of the state have been met, the Authority expects to begin construction of an additional elderly housing complex under Chapter 667.

Permanent Advisory Building Committee

ALBERT C. MILLER, *Secretary*

LOUIS P. CAMELIO

EDWARD A. LAMORE

The Permanent Advisory Building Committee makes an inspection each fall of all public buildings, schools, parks and playgrounds. It then makes detailed recommendations, including cost estimates, to the Board of Selectmen and, through them, to the Appropriation Committee, for the maintenance and improvement of the various properties.

The committee is helped in its work by various town officials and departments: the town administrator, the building repair department foreman, the school department, the library trustees, the recreation committee and others.

The amount recommended to be spent for proper upkeep over the next eighteen month period is \$396,932.00. As in past years, much of the total will be spent on schools.

The Walpole Conservation Commission is attempting to preserve selected areas in their natural state by the acquisition of land. These areas, where the balance of nature is preserved, will contribute to the protection of essential water resources and the drainage of storm run-off and will preserve significant and unique landscape features for the public and permit such activities as nature study and fishing.

To date, approximately 3.25% of Walpole's total area, or about 435 acres, in 38 parcels of land, has been placed under the care of the Conservation Commission. Fifty percent of this land, essentially wetlands, was acquired through purchase with subsequent financial aid from the State; 32.5% was transferred to the Commission from the Town of Walpole and 17.5% was donated by citizens interested in conservation.

The Conservation Commission controls roughly 20% of the area in Walpole defined by the Massachusetts Department of Natural Resources as wetlands. The area so defined, constitutes approximately 11% of the Town. In addition, ponds and areas adjacent to wetlands are included in the Commission's holdings.

At the end of 1972, an additional 30 acres were in the process of being transferred to the Conservation Commission, as gifts from citizens of the town.

In 1973 the Conservation Commission will continue to work with the Massachusetts Department of Natural Resources in striving to acquire as much of the remaining wetlands as is possible either by purchase, by gift or by a conservation restriction. The Commission is also in the process of designating areas for public recreation.

Walpole Chapter

American Red Cross

CAPT. ROY S. BELCHER, JR., U.S.N. (Ret.), *Chairman*

MRS. IDA COLE, *Secretary*

JOSEPH T. PARENT, JR., *Treasurer*

MRS. WILLIAM S. JACKSON, *Executive Secretary*

The whole philosophy of Red Cross is based on the precept of "people helping people" to inspire the spirit of volunteerism and to teach the skills needed for the relief of suffering, whether caused by man or by nature.

The Blood Program, under the direction of Roland F. Peterson, is still a major project in Massachusetts. Walpole Chapter collected 884 pints of blood during 1972 and over \$1,000.00 was spent on this program.

Our service to military families has decreased this year, although we have handled many cases such as requests for health and welfare reports on servicemen or their parents, notifications of birth or death, financial assistance, help in arranging compassionate reassignment and helping veterans to apply for their benefits. Mrs. Paul Gay, Mrs. Harry Harding, Mrs. John Ryan and Mrs. Jackson cover these services on a 24 hour duty.

The Motor Corps under the chairmanship of Mrs. Paul Nolan, has had a busy year, transporting the elderly and ill to doctors, clinics and hospitals.

The Canteen chairmen, Mrs. William Stillman and Mrs. Ross Wagner, supervise the planning and preparation of food at the Bloodmobiles.

Over 1200 children avail themselves of the opportunity to receive free swimming instructions at the Walpole pools. Water safety instructors are trained at the Red Cross Aquatic School and tuition paid by the Walpole Chapter.

William Wakefield, disaster chairman, is alerted whenever there is a disastrous fire. Assistance is given when necessary.

The Department of Agriculture designated the American Red Cross as the volunteer agency to handle Project FIND, an effort to locate older persons who might be eligible for food assistance. There were forty-two applications received from Walpole residents. Appointments were made with a social worker from the Welfare Department, for sixteen applicants. Eligibility was determined by monthly income, savings or other assets, or medical needs. Mrs. Alice Erker did a superb job as supervisory volunteer in this project.

During the past year, we lost one of our most dedicated volunteers, Mrs. Katherine Ferney.

Because of the June floods, the Walpole Chapter was asked to conduct a Disaster Campaign which netted \$1,344.00. An additional \$85.00 was pledged through the telethon over television.

Our thanks are extended to the volunteers who contributed so much of their time and effort to our very worthwhile program. We always welcome new volunteers.

Visiting Nurse Association

In 1972 the services, programs and activities of the Walpole Visiting Nurse Association clearly reflect the agency's response to the community's need and demand for innovative and comprehensive community health care.

The V.N.A. is one of the few social agencies in our community and many residents are using our services for assistance in health and social problems. A total of 3,743 visits were made to homes or to the office. Of this total, 2,158 visits were under the provision of the contract with the Walpole Board of Health. The majority of these 2,158 visits were made in the area of child and adult health promotion—as one of our primary goals is prevention of disease and maintenance of good health. In addition, under this contract the agency conducted a Breast Cancer Clinic sponsored by the American Cancer Society, and in conjunction with the Walpole Rotary Club were instrumental in obtaining the services of the Hard of Hearing Van.

The Geriatric Nurses Clinic, now firmly established at the Senior Citizens' Center, shows a total of 538 visits. Patients discharged from or receiving Outpatient care at Medfield State or Brockton V.A. hospitals account for 262 visits.

Under the supervision of Dr. Harold Groden, Health Officer, four Flu Immunization Clinics were held for all adult residents. Through the generosity of the V.F.W. Post, Senior Citizens received their vaccine free.

V.N.A. nurses assisted the School nurses with the German measles immunization program and the annual T.B. Survey in the public and parochial schools.

Our agency provides a unique service for the T.B. program in that free skin testing is available for all school personnel as well as any resident in need of this test.

New mothers and babies are referred to our agency by hospitals and individuals, and home visits are made to offer our services if needs arise. In coordinating with School nurses and the Welfare Department the agency was successful in sending six children to summer camp with monies received from the Salvation Army and Lend-A-Hand Club.

In other community activities we have been working actively with the Board of Health and Community Volunteers in seeking housing and

supportive care for individuals in need. A total of thirty-six pieces of medical equipment was loaned—free of charge—to Walpole residents. We are extremely fortunate in this town to have as a resource the Walpole Medical Aid Fund. The nurses evaluated and referred eight cases to the directors of this fund.

We welcomed four Peabody students this year for their public health experience. College and high school students came to our agency for material in Public Health, drug and alcohol programs. We have continued to be active participants in the formation of a Home Health Aide Homemakers Service for the area. This program has been in the organizational phase for eight years but is coming to fruition in January when 25 applicants will start training at the Peabody School in Norwood.

As usual in our Town, people care for people. We are extremely grateful to many individuals and church groups, Girl Scout Troops, St. Vincent De Paul Society, Rotary Club, and the Salvation Army for assisting us in remembering many children, homebound individuals and senior citizens during the holidays.

We continue to qualify as a Home Health Agency complying with the Federal Government standards and are entitled to participate in the Medicare Program. This year we successfully met the demands of the Utilization Review Board of Blue Cross-Blue Shield and the Rate Setting Commission of Massachusetts. We continue to provide therapeutic nursing care with emphasis on restoring individuals to maximum functioning with assistance from their families. Nurses and secretaries attended Classes and Seminars to keep abreast of new services, new procedures and new methods.

The Board of Directors, working closely with town officials, anticipate continued expansion of services and programs as Walpole V.N.A. works cooperatively with other health care providers and communities to ensure all citizens of optimum home and public health service.

Council on Aging

ALICE ERKER, *President*

JOHN CAMPBELL and WALTER MULDOON, *Vice-Presidents*

DAVID HUTCHINS, *Secretary*

MARGARET GINLEY, *Treasurer*

ANN ZEELAND and EARL DAVIS, *Members*

The Drop-In Center is open Monday through Friday, 10 a.m. to 4 p.m. at Lower Blackburn Hall.

Social Services are available to all Walpole Senior Citizens on a regular basis at Blackburn Center. The services are: Nurses' Clinic, every Tuesday; Social Security Representative, third Tuesday of each month; Legal Counseling, second Tuesday of each month; News Bulletin, first Monday of each month. A flu vaccination clinic is held annually.

Council meetings are held at Blackburn Center on the second Wednesday of each month at 8 p.m. and are open to the public. Regional Council meetings are held at Blackburn Center quarterly.

Historical Commission

HELEN VALENTINE, *Chairman*

FRANK LARABEE

THEODORE HOWARD, until August 1972

RUTH VIETZE, from September 1972

The year 1972 saw several changes in the Walpole Historical Commission itself. Captain Belcher resigned for personal reasons, and Helen Valentine took over as temporary chairman. In August two members' terms expired. Mrs. Maureen Rivers was reappointed. Mr. Howard could not continue for business reasons, and Mrs. Ruth Vietze was appointed in his place.

At the October meeting, Mrs. Helen F. Valentine was elected chairman, and Mrs. Ruth Vietze secretary.

The Committee is anxious to have the older homes, and homes of particular historical or architectural significance marked with plaques. Some homes in other towns are already so marked. We have secured an estimate on two types of markers.

Before a site can be marked with a plaque, we must have information substantiating its age, if possible the name of the builder or first owner, and other information confirming the fact that the site is historically significant. In addition, the State Historical Commission is very anxious to have all such places registered with them. In that way the site may be protected in any demolition, land-taking or road-building or even construction that materially changes the surrounding area so as to diminish the appearance of the site.

The Commission at the present time is anxious to protect one site on Town property. We are also interested in seeking to protect one of our older homes from possible demolition or misuse. The legal aspects of this site are complicated and we may need assistance from the State and the Town Council in determining if we can protect or acquire it.

Considerable research will be necessary, not only with the above named two projects, but into other sites in Walpole as well. Pictures must be taken of some places. It may be necessary to hire research done for us if property owners do not have information on their homes, yet want them noted.

Defense Civil Preparedness Agency

WILLIAM N. RING, *Director*

WALLACE R. DUNCAN, *Deputy Director*

On May 5, it was announced by the Secretary of Defense that the Office of Civil Defense would be changed to Defense Civil Preparedness Agency. The new agency is responsible for the administration of the national Civil Defense program and natural disaster preparedness planning.

Catastrophe is compounded when the means of meeting it are not available. With this in mind, our local agency has greatly improved the capacity of our emergency operating center. The picture above displays our newly re-conditioned van rescue truck. Should we face a major disaster, this vehicle is equipped and maintained for use by our volunteer corps of nurses. The primary purpose for this vehicle is to carry disaster medical supplies.

The Personnel Board was established in 1954 to administer the Classification and Wage and Salary plan, set up under Town By-Law.

The basic responsibility of the Board is to develop a program which encompasses wages and salaries, fringe benefits, job descriptions and the review of specific personnel needs of town departments and employees, except those specifically exempted.

During the year the Board has met with many department heads, committees and boards regarding town personnel matters. More than 100 merit increases were reviewed by the Board.

The Personnel By-Laws were revised and accepted by the Annual Town Meeting. Further review is under study.

The recommendations made for the 1973 Town Meeting will be within the guidelines as set forth by the Wage and Salary Board under the provisions of the Economic Stabilization Act.

The regular meetings of the Personnel Board are held on the first and third Mondays of each month.

Two valuable library treasures have been highlighted this year. The library's copy of the folio edition of John J. Audubon's *Birds of America* had been wrapped in heavy plastic for safekeeping when construction began of the addition in 1967. One of the town's most prized possessions, this very large book contains engravings of over one hundred American birds. The book was a legacy from Frank Pillsbury who died in 1927. Town Treasurer for twenty-five years, Mr. Pillsbury was interested in all aspects of nature, especially birds and was a member of the Ornithological Society, a predecessor of the Audubon Society. A protective display case has now been made for it and placed near the encyclopedia shelves in the Main Library reference collection, on one of its most active locations.

Another library treasure that had been tucked away for safekeeping was brought to light as a result of Swedish exchange student Ann-Carlotte Brobjer's stay in Walpole. After World War Two Walpole children, guided by Children's Librarian Hannah Hatfield, participated in a treasure chest campaign that resulted in two boxes of books being sent to bombed European towns. Later the Swedish recipients reciprocated with a chest full of Swedish books, postcards and paintings done by the children. When Miss Brobjer was shown the chest she found it brimming with familiar items. With the help of the David M. Munro family with whom she was staying, she arranged an exhibit of the paintings and books in the Children's Room and on at least two occasions came to the library to talk with children and their parents, about Sweden, its customs and its books, thereby adding new meaning a new dimension to a generous event from the past.

In a related matter, the Aaron Willard grandfather clock in the Main Library Adult Reading Room has been appraised and insured. This beautiful clock which stood for years to the right of the entrance in the old library, was a legacy from Catherine E. Leland who died in 1904. Her will provided that the clock was to be placed in the Adult Department of the library and never to be moved.

Thanks to the Walpole Arts Council, the work of a number of artists have been exhibited in the Main Library Adult Reading Room, and it is most impressive to realize the number of talented artists, professional and amateur, who make their homes in Walpole. The work of Ed Stearly who arranges and hangs these exhibits has been especially valuable in providing this library service which otherwise would be impossible.

Also due to the Arts Council, and especially Steve Petrie, a series of film programs was presented in the library meeting room.

In the summertime, two art workshops for children were presented by Channing Reeves, who found a most enthusiastic audience which produced a number of interesting drawings.

The theme of the summer reading club this year was "Ecology: A Wild Idea" and it also drew many youngsters.

A series of Saturday story hours was presented by Children's Librarian Mrs. Hawkins and a student volunteer, Sharon Arnold, and the Children's Department's collection of story telling cassettes has been doubled. This "instant story telling" service started in 1970 when the library acquired a tape recorder with earphones for in-the-library listening only, and it is still an obvious hit with the children.

The Xerox 914 machine installed in the summer of 1966 was retired after five years of faithful service and replaced in February by a newer 720 model which had the advantage of being faster and somewhat easier to operate. The library's copying activities have almost quadrupled from a total of 15,696 copies in 1967, its first full year of operation, to 61,429 in 1972. No attempt is made to keep track of the various kinds of copying but the machine is used for such purposes as copying pages from reference books for library patrons (mostly but not entirely, students), making catalog cards, copying bills, reports and other materials pertaining to the library operations, and various kinds of items brought in by patrons—such as income tax returns. All in all the machine has proved to be a most valuable asset to the library and its patrons and it is not unusual to have two or three people lined up waiting to have copies made.

Walpole's library resources have again been supplemented throughout the year with deposit books from the Eastern Regional Library System Bookmobile. A total of 600 titles have been received and their local circulation amounted to 7,100, 5,900 of which were taken from the children's room, where they are conspicuously displayed on a special rack near the circulation desk.

The system's bookmobile service, interlibrary loan program, and its film collection add up to a substantial contribution to local library service. It also sponsors workshops and other professional programs for library staff members, compiles attractive booklists and offers packaged special collections for exhibits. An innovation this year was the introduction of several weekly stops by a truck from the Thomas Crane Library in Quincy, headquarters library for the Quincy subregion, to which Walpole belongs. This truck delivers and picks up interlibrary loan books and requests, films and various kinds of communications, all of which have speeded up interlibrary loan processes.

Once again, friends have presented the library with many gifts of books, paperbacks, magazine subscriptions and recordings for the use and enjoyment of library patrons, and when a long-time library friend, Lucy Sumner, died, many of her relatives and friends made contributions to the library in her memory.

MAKING A BIRDHOUSE DURING "RECESS"

School Department

SUPERINTENDENT'S REPORT

The school year started September 5, 1972 with 50 newly appointed teachers joining with the returning staff members and the Administrators in a series of workshops to plan for the opening day.

The enrollment for the school year was 4797. A five-year comparison shows a decrease in Grade One admissions, a steady pattern at the Junior High level and a slight increase at the Senior High.

	1968	1969	1970	1971	1972
Elementary	2496	2380	2358	2334	2347
Junior High	1234	1349	1314	1288	1271
Senior High	907	1012	1053	1133	1179
Totals	4637	4641	4725	4755	4797

Three of our elementary schools—Bird, Plimpton, and Stone—do not contain all of the children from Grades I through VI living in the respective districts. It was necessary to send all Plimpton School sixth graders to either the East Junior High or the new Fisher School in North Walpole. One class of sixth grade pupils from Bird is at the East Junior High. Fifty sixth grade pupils from Stone are at West Junior High.

Since the State requires us to enroll Kindergarten pupils in our schools next September, the problem of housing 300 kindergarten children in elementary schools should prove interesting to say the least.

NOW WE ARE SIX

At the Senior High School, we have 421 sophomores coming in at 9:30 a.m. and remaining about two hours after the juniors and seniors leave. In another school year with the present 334 seniors graduated, an incoming sophomore class of 419 will arrive and we expect 1252 at Walpole High. The space problem still faces us at this level too.

The number of pupils enrolled in each of the schools is as follows:

Bird 1 to 6	350	Plimpton 1 to 5	189
Boyden 1 to 6	297	Stone 1 to 6	514
Fisher 1 to 6	579	East Junior High 6 to 9	664
Old Post 1 to 6	314	West Junior High 6 to 9	712

RESEARCH AND DEVELOPMENT

While our staff pursues curriculum research and development throughout the school year, it is during the summer months that a more intensive effort can be given to finding new and better ways to improve our instructional program.

With monies coming from the curriculum research and development account in the school committee's budget, more than 40 teachers were employed for varying lengths of time during the summer of 1972.

Project proposals representing nearly all grade levels and subject areas were submitted in the spring. As a limited budget necessarily requires a selection of projects for summer study, proposals are viewed with respect to the greatest benefit which can accrue to the school system.

WILLIAM GRAFF AND FIFTH GRADE STUDENTS find small group instruction fun—and hard work!

Several projects were directed to extending program offerings in areas related to occupational and vocational education: e.g., computer programming at the senior high school; career education, consumer education, power mechanics, and a new construction unit at the junior high school level. An "open education" project at the elementary level found teachers developing "learning centers" related to woodworking and cooking.

High priority was also given to those proposals which included the preparation of teaching materials by curriculum specialists for use by classroom teachers. Materials produced in elementary reading and general speech development during the summer are already in wide use by the late fall. The reproduction of such materials, in some cases for as many as 100 classroom teachers, can become a complex and costly item. This necessary component of curriculum development itself is in need of further study within our schools.

Provision for lower ability students continues to command a high priority as was evidenced by an intensive study of the ninth grade English program and the seventh and eighth grade mathematics curriculum.

Studies begun in previous summers were continued in social studies and tenth grade composition. For the first time in several years a health education study was begun this summer that has triggered additional study on a system-wide basis in the fall. A system-wide elementary science resource materials center was begun that has enabled teachers to extend teachings into new areas of "hands on" scientific discovery and inquiry.

PLASTICS TAKE FORM in new junior high school industrial arts project.

An archaeology unit at the junior high school level opens an entirely new aspect of social studies.

In the visual arts students and teachers alike studied and worked together to develop new projects for the regular school year. Consultants came to Walpole, and staff went to them. Summer projects were housed in Walpole and in the university libraries of Boston. While some projects lasted for one or two weeks, most continued for a full five weeks.

The staff proposals for study appear limitless. The benefits enormous.

MEDIA SERVICES DEPARTMENT

The use of media centers in the Walpole Public Schools has continued to grow. Careful selection of learning materials, (filmstrips, library books, sound filmstrips, transparencies, materials for making our own learning materials, recordings) on a system-wide basis has made possible an increasing knowledge of exactly what is available throughout the system, while the continued acceptance of the concept that any item found through Media Services in any school is for the use of anyone or any school in the system, and not merely for a particular school or particular level, has grown with the increase in professional level and paraprofessional level Media Services personnel to promote and find materials and uses for student and teacher learning needs.

Economies of materials purchase, while maintaining primary insistence on the educational usefulness and quality of the learning materials purchased, have been astounding, achieving, for example, by system-wide purchase of photographic film savings of 55% over the cost most of us experience at the least costly nearby discount stores, and achieving such in-depth use of informational type materials as most systems never

WAYNE KIVI, new elementary principal, takes mathematics to the playground

experience. Central Media Services ability to tell the seeker just what the system has, not only by title, but also by possible subject uses and topics, is finally coming into full use. And now the possibilities for professional growth of teachers are increasingly opening up by the growing dissemination and promotion of professional education materials from our central collection, (housed at Old Fisher School) which is also open to use by any interested towns-person, as some have discovered.

Our primary goal of providing the people, materials, and spaces needed to allow the child to grow in his learning experiences in the way most appropriate to his own and unique potentials and needs is a little nearer fulfillment because of the total mesh of those spaces, people (professional and paraprofessional level Media Services personnel) and materials, as well as because of the support and coordination given the whole by a central Media Services Agency.

FALES AND LEACH SCHOLARSHIP AWARDS — 1972

LEACH SCHOLARSHIPS

The Leach Scholarship Committee met on December 18, 1972 and awarded scholarships to students who are graduates of Walpole High School and who are enrolled at non-sectarian colleges, universities or institutes:

Robert Alward, attending University of Massachusetts
 Barbara Beise, attending Kirkland College
 Linda Cruickshank, attending Framingham State College
 Mary Ellen Driscoll, attending George Washington University
 School of Law

ANOTHER RECESS ALTERNATIVE

Martha Farinacci, attending Rensselaer Polytechnic Institute
 Paul Garbaczski, attending Syracuse University
 Nancy Johnson, attending Bates College
 Kevin McLean, attending University of Pennsylvania
 Elizabeth O'Brien, attending University of Massachusetts
 Christine Plasmati, attending Springfield College
 Janice Smith, attending Wellesley College
 Donna Stacy, attending Muhlenberg College
 Christine Varney, attending Brown University
 Cheryl Wedge, attending North Adams State College

The interest from this large fund will amount to approximately \$12,320.00. In all sixty-two applications for Leach scholarships were processed.

FALES SCHOLARSHIPS

The Fales Scholarship Committee announced the 1972 awards to graduates of Walpole High School, who are attending colleges, universities, or institutes as follows:

Mark Anderson, attending Texas Christian University
 Wallace Duncan, attending Kalamazoo College
 Cheryl Gustafson, attending Southampton College
 James Huggins, attending University of Rhode Island
 Mark Jackson, attending Boston University
 Jeffrey Johnson, attending Andover Newton Theological School
 Jean Olson, attending University of Rochester Medical School
 Joseph Pruett, attending Boston College School of Law
 Diane Ruggles, attending Stonehill College

STATISTICS FOR THE CLASS OF 1972

Walpole High School graduated 343 students on June 4, 1972. Considering the total class of 343 students, 244 have made application and 221 have been accepted for further study. The breakdown and a comparison with the classes of the four previous years is as follows:

	1968	1969	1970	1971	1972
	Percent				
Four Year Colleges	40	37	37	35	38
Two Year Schools	10	16	21	12	18
One Year Programs	12	8	6	8	7
Nursing Schools	3	5	3	3	2
Preparatory Schools	5	2	3	1½	2

This is a total of 67% of this year's students. For these students, the Guidance Department processed 673 applications and the students received a total of 406 acceptances.

The remainder of the class have future plans as follows:

	1968	1969	1970	1971	1972

MAJOR CURRICULA CHANGE

With the approval of the School Committee and the Department of Education, Walpole High School initiated a Max-Ed Program for 1972-1973. This program is intended to encourage high school students to make their own decisions and accept the responsibility for their actions. The school does not abdicate its responsibilities by allowing students to act on whim or chance. The school tries to provide a setting wherein students are allowed to make occasional choices, but are encouraged to make reasonable decisions and are taught to foresee and to accept the responsibility and consequences of their choice.

Copies of the entire Max-Ed Program have been given to each student and parent and are available in the school.

This program is now under evaluation by staff, students, and parents.

It may be noted that although many schools are now adopting the Max-Ed Program and it soon will be in wide use throughout the state, Walpole initiated the plan when only approximately ten schools in the state were using it.

20. Expansion of the Work Study Program
21. Distributive Education

In addition to the foreign language courses for the accelerated and college preparatory students, new courses have been established in foreign language for non-preparatory students which stress cultural and international appreciation in Spanish and German. Walpole's Spanish students have traveled to Washington, D. C. in 1971, to Mexico City in 1972 and to Washington in 1973, for appreciation of the hispanic influence of our nation's capital and daily living south of the border. They are anticipating a trip to Spain in 1974. Fifteen French students will visit Paris in April, 1973, to utilize their spoken French and view the historical and provincial studies of France. Walpole realizes the importance of foreign languages in our contemporary scene.

EXTENDED DAY

Due to crowded conditions at the high school we have adopted an extended day with overlapping schedules for 1972-1973. This is an effort to conduct a full school day and yet have times during the day when all the pupils are not present, thus making greater use of classrooms and facilities. The 11th and 12th grade pupils (approximately 750) start school at 7:55 and leave at 1:25 (periods 1 through 7). The 10th grade pupils (approximately 425) start school at 9:27 and leave at 2:57 (periods 3 through 9).

ARENA SCHEDULING

A new concept in student scheduling was started in the Spring of 1972, called Arena Scheduling. This innovation provided that given the condition in which a course is taught by more than one teacher, the student can select the teacher of his choice. Also, given the situation in which a course is offered in more than one period, the student can choose the period he wishes to take the course.

The procedure proved successful and we plan to continue it this year. As one of the very first schools in the state to start this, we have been visited by other schools interested in learning more about the program in hopes of starting their own after our model.

DATA PROCESSING SERVICE

Since September 1968 we have had our own unit record equipment. With this equipment we are presently doing system wide attendance, report cards, and scheduling for the three secondary schools. Further, with this equipment we are processing all elementary school permanent records. Since September 1970 we have rented a small 1620 Computer. This piece of equipment is used primarily for instructional purposes.

In addition to the above mentioned administrative uses, this equipment is used as instructional devices. Presently, we have four divisions of Computer Programming. In this course students work primarily with the 1620 Computer. Further, a program of independent study is offered to those students who have completed Computer Programming. It involves an in-depth study of machine language (S.P.S.) and the completion of computer oriented projects for use by specific departments or administration.

LANGUAGE DEVELOPMENT

This year for the first time a conscious effort was made to bring the reading, speech, and learning disabilities specialists together to learn and consider common problems. We have found this to be beneficial to us and most importantly to the individual child who has a problem in the language development area. Case studies and workshops have been useful tools for this purpose.

Quantities of written materials have been produced. Handbooks in reading, speech, and learning disabilities have been prepared. Work has begun on a curriculum guide. Summer reading lists were prepared for elementary school students and the cooperation of the librarians in the public libraries has been very much appreciated. *Now We Are Six*, a reading readiness handbook for parents of students entering first grade, was written and distributed. The first *Reading Research Project* was undertaken as part of our ongoing data collection and analysis of the progress of elementary school students.

Approximately 400 students from all grade levels received special help in the language arts area. About 200 students attended speech therapy classes. In addition, a Speech Improvement Program which was prepared by our Speech Therapists was introduced to all children at the elementary level. Nearly 100 students in the elementary and junior high schools participated in the learning disabilities program. The pilot phase of this program has ended and screening, diagnosing, and teaching has begun on a broader, although still limited, scale.

1972 SUMMER KINDERGARTEN PROGRAM

Seventy-two percent of the children eligible to enter Grade One in September availed themselves of the opportunity to attend our five week Summer Kindergarten program. All classes were conducted at the Fisher School and children were grouped according to their school districts.

Although limited in so far as time is concerned, the program has been effective in serving as a reception center which introduces the young child to an environment which harmonizes the finest qualities of home and school. Considerable information is gathered on each child as a result of observation, screening and testing. This information is then forwarded to the school which the child attends in September.

Number of children registered	286
Number of children attending program	273
Average daily attendance	232
Percentage of attendance	86.3
Number of school days	23

TITLE I SUMMER PROGRAM

Once again the Walpole School Department was fortunate to receive Title I federal funds for an Individualized Subskills Learning Program held in July. The program provided supportive, remedial, and enrichment activities for about 90 children from grades 1-3. An informal and relaxed atmosphere prevailed with children receiving much individual attention due to a staff pupil ration of 1 to 3. Several educational field trips were included to give the youngsters valuable experiences beyond the school walls. The program provided the kind of unusual opportunity and support that would enhance the educational experience of any child.

ADJOURNED ANNUAL TOWN MEETING

March 20, 1972

Pursuant to the foregoing adjournment, the Adjourned Annual Town Meeting of the Town of Walpole was held in the West Junior High School Auditorium on

MONDAY, MARCH 20, 1972

The meeting was called to order at 7:30 P.M. by Moderator Richard K. Troxell. All by-laws and regulations concerning the calling of a Town Meeting were fulfilled and a quorum of Town Meeting Representatives was present.

Reverend Mrs. Virginia Eisentrout delivered the Invocation and the Assembly recited the Pledge of Allegiance.

The following Tellers were appointed by the Moderator: Mrs. Evelyn Verrochi and Mrs. Mary Haggblom.

It was *voted*: To waive the reading of the Warrant.

ARTICLE 1.

No action.

ARTICLE 2

REPRESENTATIVE TOWN MEETING RULES

Introduction

In the following report you will find our proposal of nine basic Town Meeting procedural regulations. With the exception of three items, most of what we are offering for adoption is consistent with prior practices. Our objective has been to put into words some of those procedures which have caused the most difficulty in the past. In a minor way, they limit the prerogatives of the Moderator. By the same token they will make it easier for him since he will not be in a position of being accused of acting arbitrarily. The rules will be specific and he will have to abide by them.

A word about reconsideration. Your Committee has examined procedures on this delicate matter being used in more than 80 Towns, and contained in a variety of manuals. In our proposal we are placing considerable faith in the RTM members that reconsideration will be used only to promote the best interests of the Town, for undoing an error, or for the reopening of an Article if pertinent information has been uncovered. Without becoming far too complicated, there is no way in which we can give ourselves the opportunity to rectify a genuine error and at the same time prevent the motion from being used as a parliamentary gambit. Although the Moderator is always in a position to refuse a motion, if in his opinion it is frivolous, dilatory or otherwise out of order, we suggest that the RTM members keep the following procedure in mind.

If a motion for reconsideration of a previous vote is made, and if the audience feels that it is being used to "freeze" the previous vote, and without a genuine intention to introduce new and valuable discussion, a motion to LAY ON THE TABLE the motion to reconsider would be in order. If carried by a two-thirds vote, the effect would be that the previous main vote remains, but that the subject could still

be reopened (by Taking From the Table) if we felt that we had made an error, etc. We don't anticipate difficulty with our proposal, but we do feel strongly that everything we do should be subject to reconsideration if we have made an error, or failed to receive all the information necessary for making sound judgments.

It was *voted*: That the Rules and Procedures adopted by this meeting become effective immediately upon the receipt of a majority vote, and that the report of the Rules Committee be considered and voted on item by item. Items are in conformity with the printed Report distributed to all RTM members present, from 1 to 10. The Main Motions are to be the printed recommendations. This motion includes Item 1.

RULES OF PROCEDURE APPLYING TO THE CONDUCT OF REPRESENTATIVE TOWN MEETINGS WALPOLE, MASSACHUSETTS

(1) The following rules of procedure shall become effective upon a majority vote of the elected Representatives of the Annual Town Meeting of 1972.

(2) METHOD OF TAKING VOTES

a. Unless otherwise called for by the Representatives, and in keeping with the provisions contained herein, the vote on any Article will be by voice vote, i.e.: aye or no.

b. The Moderator's call of the vote may be challenged immediately by no less than seven (7) Representatives, and such a challenge will result in a standing count by Tellers appointed and sworn by the Moderator.

c. The Moderator's call of a standing vote (b, above) may be challenged by no less than 20 Representatives, and such a challenge will result in a Roll Call vote, called by the Town Clerk. Representatives will respond to the Roll Call with "Aye" or "No" or "Abstain". The Moderator will call the results of a Roll Call vote on the basis of those present and voting, assuming that a legal quorum is considered to exist. A Representative may not remain silent on a Roll Call vote. A motion will carry only when the "aye" vote meets the quantitative requirements established either by the General Laws, or by established procedural rules (majority, two-thirds, four-fifths, etc.) There is no appeal of a Roll Call vote as called by the Moderator.

d. In the event of a tie vote, either as a standing vote, or Roll Call vote, the Moderator will immediately order the vote taken again by Roll Call. A second tie will result in defeat of the motion and there will be no appeal.

e. Prior to the taking of any vote on any Article, the meeting may demand either a Roll Call vote or a Secret Ballot in the following manner:

ROLL CALL

1. A properly made motion from the floor.
2. Seconding by no less than 20 RTM members.
3. Adoption by no less than a majority of RTM members present.

SECRET BALLOT

1. A properly made motion from the floor.
2. Seconding by no less than 20 RTM members.

On Amendment offered by George F. Barr, It was *voted*: That Item 3 under Secret Ballot read: Adoption by a two-thirds vote.

Motions for either a Roll Call vote or Secret Ballot are not subject to debate, nor may such a motion be reconsidered. The votes on a Roll Call or Secret Ballot motion will be taken by the Moderator in any manner he sees fit, and are subject to challenge in accordance with paragraphs 2a and 2b of the foregoing.

It was *voted*: That (2) *METHOD OF TAKING VOTES* be accepted as amended.

(3) RECONSIDERATION

The word "*reconsideration*" applies to a vote, not to an Article. The intention of a motion to reconsider, therefore, is to reverse a previously taken vote, regardless of reasons. The motion on which the vote was originally taken is exactly the same motion that will be before the house again if the motion to reconsider is carried.

a. Reconsideration of any vote on any Article, or portion of an Article if it has previously been divided, is permitted.

b. A motion to reconsider, if defeated, may not be raised a second time.

c. A motion to reconsider, if carried, may not be raised again unless the original vote is reversed. (Example: the original vote was in favor; the vote is reconsidered, and the resulting vote is against; the vote against may once more be reconsidered. If the original vote in favor is sustained, no further motion for reconsideration will be permitted.

d. The motion to reconsider is not debatable. The mover must explain, in not more than one minute, why such a motion is being made, following which the vote will immediately be taken, assuming that the mover has made no statements requiring comment by Town Counsel or Moderator.

e. A motion to reconsider requires a two-thirds vote for passage.

It was *voted*: That *Item 3—RECONSIDERATION* be accepted as presented in the printed report.

(4) CONSIDERING ARTICLES OUT OF ORDER

On Amendment offered by Bernard J. Duffy, It was Moved and Seconded: That Section A be amended to read "Consideration of salary increases under negotiations may be deferred until the conclusion of negotiations".

On Amendment offered by Carolyn D. Schmalz, It was *voted*: That the amendment of Section A be amended to substitute "changes" for "increases".

It was then *voted*: That (4) CONSIDERING ARTICLES OUT OF ORDER, Section A, be amended to read: Considerations of salary changes under negotiations may be deferred until the conclusion of negotiations.

On Amendment offered by Thomas M. White, It was *voted*: That (4) Section B, be amended to read: Upon motion of the Moderator, or any RTM member, Articles may be considered out of printed sequence only by a majority vote of the RTM.

C. A vote to change the order of consideration may not be reconsidered.

It was *voted*: That (4) *CONSIDERING ARTICLES OUT OF ORDER*, be accepted as amended.

(5) SPEAKERS

On Amendment offered by Eleanor N. Johnson, It was Moved and Seconded:

That (5) Section a. be amended to read: Registered voters, spokesmen, counselors, or others not duly elected RTM members, may speak for not more than ten minutes without leave of the RTM membership. RTM members may be given their say first, however, except as a non-RTM member may be, or represent, the primary petitioner or petitioners.

Motion was: *Defeated*.

On Amendment offered by Eleanor N. Johnson, It was Moved and Seconded: That (5) Section c. be amended to read: Permission to speak longer than ten minutes may be granted by a majority vote of the meeting.

Motion was: *Withdrawn*.

On Amendment offered by Richard H. Holman, It was Moved and Seconded: That (5) Section d. be amended to read: RTM members retained for a fee by a group or individual to represent same as spokesman must identify the fact if such is the case.

Amendment was: *Defeated.*

It was *voted*: That (5) *SPEAKERS* be accepted as presented in the printed report, as follows:

(5) *SPEAKERS*

a. Registered voters, spokesmen, counselor, or others, not duly elected RTM members, may speak for not more than five minutes without leave of the RTM membership. RTM members must be given their say first, however, except as a non-RTM member may be, or represent, the primary petitioner or petitioners.

b. Speakers, other than RTM members must identify themselves, state their residence and state that they are spokesmen (retained, paid or otherwise) for any group or individual affected by the Article if such is the case.

c. Permission to speak longer than five minutes may be granted by a majority vote of the meeting.

d. RTM members retained by a group or individual to represent same as spokesman must identify the fact if such is the case.

On Amendment offered by George F. Barr, It was *voted*: That the heading: (6) *ADJOURNMENT TIME—DISSOLUTION* be changed to read *ADJOURNMENT TIME—DISSOLUTION, UNLESS OTHERWISE GOVERNED BY LAW.*

On Amendment offered by George F. Barr, It was *voted*: That (6) a. be changed to read: Meetings (evenings) will be adjourned at *approximately* 11:00 P.M.

On Amendment offered by Sanford J. Hamilton, It was Moved and Seconded: That (6) b. be amended to read: No new Articles will be considered after 11:00 P.M. unless voted otherwise by a majority of RTM members present.

Amendment was: *Defeated.*

It was voted: That (6) *ADJOURNMENT TIME—DISSOLUTION* be accepted as amended, as follows:

(6) *ADJOURNMENT TIME—DISSOLUTION, UNLESS OTHERWISE GOVERNED BY LAW*

a. Meetings (evening) will be adjourned at approximately 11:00 P.M.

b. No new Articles will be considered after 11:00 P.M.

c. Debate on Articles begun before 11:00 P.M. may continue if conclusion of such debate appears imminent to the Moderator.

d. The Moderator shall request a motion for adjournment of the meeting at 11:00 P.M. if, in his opinion, the conclusion of debate is not imminent.

e. Meetings may be adjourned at any time upon motion made and seconded and carried by a simple majority. Such motions shall carry a time and place stipulation for convening the subsequent meeting.

f. No Town Meeting shall be dissolved without properly disposing of all Articles on the Warrant.

On Amendment offered by Clement Boragine, It was *voted*: That Item c. under (7) *NOTIFICATION OF FUTURE MEETINGS* be stricken.

It was *voted*: That (7) *NOTIFICATION OF FUTURE MEETINGS* be amended, as follows:

(7) NOTIFICATION OF FUTURE MEETINGS

a. In conformity with the Act Establishing Representative Town Government in Walpole, Chapter 709 of the Acts of 1969, written notification of future meetings will be mailed to all RTM members when practicable.

b. Notification of scheduled consecutive Town Meetings (falling on consecutive days) shall be stated on the written notice sent to RTM members prior to the first of such consecutive meetings.

c. Adjourned meetings two or more calendar days apart will require written notification to RTM members, if not previously announced in writing.

It was *voted*: That (8) *RULES COMMITTEE* be accepted as presented in the printed report, as follows:

(8) RULES COMMITTEE

A Standing Committee, called the Rules Committee, consisting of one (1) RTM member from each Precinct shall be elected as the first order of business at the first session of the Annual Town Meeting, in the following manner:

1. Upon adoption of this rule in 1972, RTM members from each Precinct will caucus, select by vote or acclamation, one name to be submitted to the slate.

2. Upon receipt of a name from each Precinct, the Moderator will announce the slate as duly elected.

3. Subsequent to 1972, each Precinct shall have its caucus at its own convenience, and will be prepared to offer a candidate for re-appointment, or a new candidate. Upon receipt of a complete slate, the Moderator shall put their names to the RTM members for a confirming vote. A simple majority shall be sufficient for election.

A Recess was called for the purpose of selecting one (1) RTM member from each of the seven Precincts to serve on the Rules Committee. The following were elected:

- Precinct 1 — Peter Bradley*
- Precinct 2 — Barbara Angus*
- Precinct 3 — George Barr*
- Precinct 4 — Coleman Foley*
- Precinct 5 — James Erker*
- Precinct 6 — Fred Davino*
- Precinct 7 — John Farrell, Sr.*

On Amendment offered by Bernard J. Duffy, It was *voted*: That under (9) *RULE CHANGES*, Item a. be amended to read: All proposed changes in Rules will be referred to the Rules Committee, which will consider them and make recommendations as the first order of business at the first session of the Adjourned Annual Town Meeting.

On Amendment offered by Clement Boragine, It was Moved and Seconded: That (9) *RULE CHANGES*, Item b. be amended by striking the last word "present".

Amendment was *Defeated*.

On Amendment offered by Clement Boragine, It was Moved and Seconded: That (9) *RULE CHANGES*, Item b. be amended by substituting "four-fifths" for "two-thirds".

Amendment was *Defeated*.

It was *voted*: That (9) *RULE CHANGES* be accepted as amended, as follows:

(9) RULE CHANGES

a. All proposed changes in Rules will be referred to the Rules Committee, which will consider them and make recommendations as the first order of business at the first session of the Adjourned Annual Town Meeting.

b. Changes in these Rules, presented in accordance with (a) above shall become immediately effective upon a two-thirds vote of the RTM members present.

c. Rules governing all other matters not specifically covered herein or by Rules later adopted, remain within the province of the Moderator to decide and to order.

d. The Rules Committee shall consider all matters pertaining to the conduct of RTM meetings:

1. When ordered by a majority of RTM members;
2. When ordered by the Moderator;
3. On their initiative.

It was *voted*: That (10) *MODERATOR APPOINTED COMMITTEES* be accepted as presented in the printed report, as follows:

(10) MODERATOR APPOINTED COMMITTEES

a. Study committees to be appointed by the Moderator require a two-thirds vote of the meeting so to order.

Respectfully submitted,

George F. Barr, *Chairman*
Robert B. Boyd
George B. Delaney
John W. Farrell
Mrs. Fred Youngdahl
Gilbert W. Anderson
George Sanborn (*Resigned*)

It was *voted*: To discharge the Committee with thanks. Said committee was appointed under Article 2 of the 1971 Annual Town Meeting.

ARTICLE 2. It was *voted*: That the committee to Study the Protection of Public Buildings be continued for a five year period and that the Moderator be authorized to reappoint or appoint new members on this committee as necessary.

ARTICLE 2. On Motion of Peter A. Bradley, It was Moved and Seconded: That the Town Meeting establish a committee to be called the Town Meeting Action Review Committee, and that this committee shall be composed of one town meeting representative from each precinct, to be chosen by the representatives of each precinct and one member-at-large to be appointed by the Moderator.

The duties of this committee shall be:

To review and report all action taken by the Town as a result of Town Meeting action;

To report any matter approved by the Town Meeting and not acted on or completed by the Town;

To report all action taken by the Town resulting from the recommendations of Town Meeting committees;

To report any action taken by the Town without proper authority from the Town Meeting or other legal source;

To report any other action or lack of action by the Town or its elected or appointed officials which the committee deems of importance to the Town Meeting;

And to make any recommendations to the Town Meeting pertaining to these matters which the committee deems necessary.

Motion was: *Defeated*.

It was *voted*: To Close Debate.

It was *voted*: To adjourn this meeting to April 10, 1972 at 7:30 P.M. in the West Junior High School. The Moderator so declared at 10:40 P.M.

ARTICLE 26. It was *voted*: That this Article 26, to see if the Town will vote to approve the new pay schedule as recommended by the Personnel Board, be tabled until after Article 31 has been acted upon.

ARTICLE 27. It was *voted*: That the Town approve the changes in the Personnel By-Laws recommended by the Personnel Board, as follows:

PERSONNEL BY-LAWS

STANDARD RATES OF SALARIES AND WAGES

1. Title

The Classification of Positions and the Pay Schedules appended hereto and the provisions of the By-Law shall be the Classification and Wage and Salary Plan (hereto after referred to as the PLAN) for the payment of Salaries and Wages to the employees of the Town of Walpole except such positions as are exempt.

2. Application

The PLAN shall apply to all officers and employees in the service of the Town (whether full time, or part time, seasonal, casual, special, Civil Service or other) other than those positions filled by popular election and those under the direction and control of the School Committee. Nothing herein, however, shall bar using the Plan or its provisions or facilities provided by the Personnel Board as a guide to authorized officials or Committees in determining the compensation of such otherwise exempted employees or officials.

3. Title of Positions

No person shall be employed or paid as an employee in any position subject to the provisions of the Plan under any title other than that of the job, the duties of which are actually performed. The job title in the plan shall be the official title of the position and shall be used in all administrative and employment records, and in every other connection involving personnel or fiscal processes.

All employees will be classified in one of the following categories:

PERMANENT — Employees engaged to work a full workweek for a continuous and indeterminable period. They receive all benefits where applicable and within established limits.

PERMANENT PART-TIME — Employees that work less than a full workweek, but more than 50% of the scheduled workweek for the department on a regular continuous basis. These employees receive benefits as do permanent employees but only in proportion to hours worked.

TEMPORARY — Employees engaged to work a full workweek for a continuous period not to exceed six months. After 90 days employment they receive pay for holidays provided they work the workday before and the workday after. No other benefits.

PART-TIME — All other employees. They will receive pay for the hours they actually work and are not entitled to any additional benefits.

4. Personnel Board

There shall be a Personnel Board appointed by the moderator, consisting of five members other than employees or elected officials of the Town except Town Meeting Representatives. Two members shall be appointed for a term of three years, two for a term of two years, and one for a term of one year. All subsequent appointments shall be made for a term of three years. Any vacancies shall be filled by the Moderator. The Personnel Board shall serve without pay.

4A. Quorum—Minutes

Any or all of the powers it may itself exercise, the Board may delegate to a committee of three of its members and this number shall at any time constitute a quorum; and as long as there is a quorum present none of the Board's rights or power to exercise them shall be impaired by vacancies in the Board or absences from its meetings.

5. Duties of the Personnel Board

a. The Personnel Board shall enforce and administer the Plan and establish such policies, procedures and regulations as it deems necessary and consistent with the Plan.

b. The Personnel Board shall maintain written descriptions of the jobs or positions in the Plan describing the essential characteristics, requirements and general duties. The descriptions shall not be interpreted as complete or limiting definitions and employees shall continue to perform any duties assigned by their superiors.

c. The Personnel Board shall maintain personnel records of all employees including thereon such information as it deems advisable, said records to be kept by the Town Accountant on behalf of the Personnel Board. Department Heads shall furnish such information as shall be requested for this purpose.

d. The Personnel Board shall review all positions subject to the Plan at intervals of not more than three years. The Personnel Board may add a new position to the Plan or reclassify an existing position to a different schedule or grade, subject to the subsequent ratification of its actions by a formal amendment of the Plan at the next Town Meeting. All reclassifications of schedule including Grade, Pay Ranges, Pay Rates shall be effective on the dates recommended by the Personnel Board.

e. The Personnel Board shall from time to time review the Wage and Salary Schedules. It shall keep informed as to pay rates and policies outside the services of the Town and shall recommend to the Town any action deemed desirable to maintain a fair and equitable pay level.

f. Upon recommendation of the Department Head, supported by evidence in writing or special reasons and exceptional circumstances satisfactory to the Personnel Board, said Board may authorize any entrance rate higher than the minimum rate for a position and such other variances in Salary Plan as it may deem necessary for the proper functioning of the services of the Town.

g. The Personnel Board shall compile and maintain up-to-date charts of the organizational structure of the Town.

6. Effective Date

The Plan shall become operative on the effective date of this By-Law.

7. Installing Plan

a. All present employees included in the Plan shall be eligible to receive any pay based upon their job classification as provided by the schedules adopted herewith. All adjustments shall be subject to the approval of the Department Head and the Personnel Board.

b. No pay shall be reduced as a result of the installation of the Plan. Any existing rates above the maximum shall become personal rates and apply only to the present incumbent. When his employment ends, no successor shall advance beyond the maximum for the job.

8. Increases

Progression through the rate ranges is NOT automatic and shall be on the basis of step increases because of merit on recommendation of the Department Head and the Personnel Board. Employees who leave the service of the Town after the first day of any year and an increase in pay is voted at the Annual Town Meeting, these employees will be paid such increases from the time worked during the year.

9. Promotions and Transfers

When an employee is promoted to a higher rated job, he shall enter at the minimum of the job rate range or at his own rate, whichever is the higher. He may also receive a step increase at the time, if the Department Head feels that qualifications and performance warrant it.

If an employee should be transferred and reclassified to a lower rated job he shall enter it at his own rate or at the maximum of the job, whichever is lower.

9A. Rate Range Revisions

When rate ranges are affected by a wage increase voted by the Town, either fixed percentage or a fixed amount, all employees covered by the Plan shall benefit but no employee shall be increased to a higher step in the rate range unless such increase shall be on the basis of merit at the recommendation of the Department Head and the Personnel Board.

9A1.

No job, position, or employee, or any rate of pay can be reclassified or reallocated, nor any step (progression, increase) granted; unless the Board shall have specifically approved the action before it is taken.

9A2.

And the proper Department Head shall inform the Board of each change in the content of a job or position.

9b.

An employee reclassified as a result of rate range revision shall continue at his current rate until such time as the Department Head recommends that qualification and performance warrant a merit increase and the Personnel Board approves.

9c.

No pay shall be reduced as a result of rate range revision of the Plan when employee receives a pay rate above the maximum for the job. This rate becomes a personal rate and applies only to the present incumbent. When his employment ends no successor shall advance beyond the maximum for the job.

10. New Personnel

The hiring rate shall be the minimum of the rate range for the job unless otherwise authorized by the Department Head and Personnel Board. If such authorization is given, it shall be supported by written statement of the reasons.

11. Vacations

Any regular employee who has been in the employment of the employer as of June 1 in any year for one (1) year of full time continuous employment shall be entitled to two (2) weeks' vacation with pay. Any regular employee who has been in continuous employment of the employer as of June 1 in any year for less than one (1) year but more than six (6) months shall be entitled to one week's vacation with pay. Any regular employee who has been in the employment of the employer as of June 1 for ten (10) years of continuous full time service shall be entitled to three (3) weeks vacation with pay. Any regular employee who has been in the employment of the employer as of June 1 for twenty (20) years shall be entitled to four (4) weeks' vacation with pay.

Vacations shall not be cumulative from year to year.

Any regular employee whose employment is terminated after June 1 in any year by dismissal without just cause, or by resignation or death without having taken vacation to which he is entitled, he, or in case of death, his estate, shall be paid in lieu of such vacation an amount equal to one full day's pay at his regular rate for each such day of unused vacation. Any employee who resigns shall give the employer at least two weeks' notice and, failing to do so, shall not be eligible to receive his terminal vacation pay as provided herein. Any employee dismissed for just cause shall not be eligible to receive any terminal vacation pay.

12. Leave of Absence

Except for jury duty, military training, or other reasons to the extent herein-after provided, all leaves of absence shall be without compensation.

13. Personal Leave

No personal leave with pay shall be granted during the first three months of employment.

14. Holidays

Regular employees shall be paid for each of the following holidays: New Year's Day, Washington's Birthday, Patriots' Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Armistice Day, Thanksgiving Day, and Christmas Day.

"Regular employees of the various Town departments, other than department heads, police and fire department employees, and others by agreement when hired, required to work on any of the above specified holidays shall be paid on the basis of time and one half in addition to the regular pay for that day."

Fire department employees will be paid straight time for time worked on a holiday.

14A. Sick Leave — Personal Illness

After three months of continuous employment an employee shall be entitled to sick leave with pay for the following reasons:

Personal Illness

Death in Immediate Family

Sick Days: 3 hours accrued per work week, 15 days per year with a limitation of 100 days. Accrued time will be a maximum of 100 days.

15. Overtime

a. No overtime shall be paid to the following in the normal course of their duties, even though the positions may be referred to below:

- Department Heads
- Professional Employees
- Fire Department Employees
- Others by Agreement When Hired

b. Overtime at the rate of time and one half shall be paid for all hours worked in excess of thirty-five hours scheduled work week.

c. There will be no pyramiding of overtime.

16. Education

Any full time employee of the town may participate in this program if the course(s) taken is job related and is approved by the department head. An employee should receive approval prior to registering for the course, pay for the course, and after satisfactory completion will receive reimbursement from the Town upon receipt of course credit and submission of expense voucher for tuition, laboratory costs and books. The maximum allowable educational aid for each school year shall be \$600.00. There is no reimbursement for time spent during the course, mileage or any other expense.

This by-law excludes any employee who receives other educational assistance or incentive from the Town.

17. Jury Duty

An employee called for jury duty shall be paid by the Town an amount equal to the difference between the compensation paid for a normal working period and the amount paid by the Court excluding allowance for travel.

18. Military Training

Employees with more than one year continuous employment by the Town next prior to the time of performing the service herein referred to, who are required to report for temporary summer or like period of training in the military forces of the Nation or the Commonwealth, shall be paid an amount equal to the difference between compensation for normal working period of two weeks and the amount paid for military training. An employee, on request, may combine his military leave with his regular vacation period.

An employee with one or more years of town employment, entering Federal or State Government to serve in its Armed Forces, shall upon return to town employment be restored to a position of like seniority, status and pay, unless circumstances have so changed as to make it impossible or unreasonable to do so. Application for re-employment must be made within 90 days.

This By-Law is in accordance with the Selective Training and Service Act.

19. Departmental Budgets

Each Department Head shall include in the departmental budget a Pay Adjustment Section, to provide funds for anticipated pay adjustments during the year, expenditures to be made therefrom only in accordance with the Salary Plan with the approval of the Personnel Board.

20. Fringe Benefits

Proposed changes in existing fringe benefits, such as vacations, holidays, premium pay, etc. and/or proposals for any additional fringe benefits shall be submitted by the Department Head to the Personnel Board for its recommendations prior to inclusion in proposed departmental budgets.

21. General

If any provision of this By-Law shall conflict with any Civil Service law or regulation applicable to any position, or any other law, it shall be deemed modified by the law or regulation sufficiently only to end the conflict. The invalidity of any provision hereof shall not be construed to invalidate any other provision hereof.

22. **Classification and Schedules**

The classification and schedule of pay under the plan shall be shown in the appended "Classification of Positions and Pay Schedules" as from time to time amended.

23. **Amendment**

This by-law may be amended by vote of the Town at any regular or special meeting.

It was *voted*: To adopt the proposed By-Law governing the classification of Personnel and the Administration of Standard Rates of salaries and wages as specified in Article 2 of the Special Town Meeting Warrant for action March 22, 1954 and the Classification of Positions and Pay Schedules included in the report of the Wage and Salary Committee with amendments.

24. To permit adequate study, proposed amendments other than those initiated by the Board shall first be presented to the Board in writing, but not less than forty-five days immediately before the date of the meeting in which it is intended to seek action on the said amendment.

ARTICLE 28. It was *voted*: That the Town raise and appropriate by transfer from Water Available Surplus the sum of two hundred fifty-five thousand, six hundred and ten dollars (\$255,610.00) to the Water Department, for maintenance, construction and retirement of any and all bonds, notes and interest payable in 1972 in accordance with Chapter 396 of the Acts of 1928.

ARTICLE 29. It was *voted*: That the Town raise and appropriate by transfer from the Sewer Assessment Fund to the Sewer Department for administrative expenses, maintenance, sewer connections, retirement of any and all bonds, notes and interest payable in 1972 the sum of fifty-four thousand, seven hundred and eighteen dollars (\$54,718.00) in accordance with Chapter 120 of the Acts of 1930.

ARTICLE 30. That the Town allow the following compensation for its Selectmen, Assessors of Taxes, Town Treasurer and Collector of Taxes for their services for the ensuing year and raise and appropriate the money therefor. Said compensation is shown in their respective Budget Items.

ARTICLE 31. It was *voted*: That the Town raise and appropriate or transfer sums of money as may be necessary to defray the regular departmental expenses of the Town for the ensuing year.

**MEETING OF PRECINCT 3 RTM MEMBERS
FOR THE PURPOSE OF FILLING A VACANCY**

November 13, 1972

At a meeting held on November 13, 1972, in accordance with Section 20, Chapter 709 of the Acts of 1969 for the purpose of filling a vacancy created by the resignation of Lawrence Hewins, the following action was taken:

John E. Hill was elected Chairman, and Town Clerk Louis E. Hoegler was designated Clerk.

Paul L. Whittier was chosen to fill the vacancy.

SPECIAL TOWN MEETING

November 13, 1972

Pursuant to the foregoing Warrant, the Special Town Meeting was held on November 13, 1972 in the West Junior High School Auditorium. All by-laws and regulations concerning the calling of a Town Meeting were fulfilled and a quorum was present. The meeting was called to order by Louis E. Hoegler, Town Clerk, at 7:30 P.M.

Mr. Robert B. Boyd, Jr. was elected to serve as Moderator for this meeting.

A moment of silence was observed in memory of Raymond. Hagerty, who served as Chairman and Member of the Appropriation Committee, and Ralph A. Hill, who served as Representative Town Meeting Member.

Louis E. Hoegler, Town Clerk, attested to proper return of the Warrant.

It was *voted*: To waive the reading of the Warrant.

The Town Clerk confirmed that proper notice was given to Representative Town Meeting Members.

ARTICLE 1.—It was *voted*: That the Town transfer the amount of twenty-one thousand dollars (\$21,000) from the Excess and Deficiency Account to cover the increased costs of certain school instructional salaries.

Resolution: That the Town be informed that they are really not voting \$21,000 but \$227,570.53 or approximately \$2.00 on the tax rate.

ARTICLE 2.—It was *voted*: That the Town transfer from the Excess and Deficiency Account the amount of one thousand eight hundred and ten dollars (\$1,810) to fund Home Health Services, Inc.

ARTICLE 3.—It was Moved and Seconded: That two million five hundred thousand dollars (\$2,500,000) be appropriated for the construction of filter beds, stand pipes, buildings or pumping stations, including original pumping station equipment, and buildings for water treatment, including original equipment therefor, and the acquisition of land or any interest in land necessary in connection with the foregoing, for laying and relaying water mains of not less than six (6) inches in diameter and for wells; and that to raise such appropriation the Treasurer with the approval of the Selectmen is authorized to borrow two million five hundred thousand dollars (\$2,500,000) under General Laws Chapter 44, Section 8 as amended, and further that the Selectmen are authorized to contract for Federal Aid which shall be spent for the project, provided that the total authorized borrowing shall be reduced by the amount of any Federal construction grants obtained for the purpose of carrying out the project.

It was *voted*: To Close Debate.

On a two-thirds required vote, Main Motion was then Moved, Seconded and Voted: *Vote*: Yes 97; No 13.

ARTICLE 4.—On Main Motion, It was Moved and Seconded: That the Town transfer from the Excess and Deficiency Account the amount of \$15,000 for the purpose of fluoridating the public water supply.

It was *voted*: To Close Debate.

Main Motion was then *voted*.

ARTICLE 5.—On Main Motion, It was Moved and Seconded: That the Town transfer from the Excess and Deficiency Account the amount of fifty thousand dollars (\$50,000) to obtain and evaluate cost estimates and architectural plans for new construction and additions to existing structures to provide equalized elementary space including kindergartens, a three year high school, and a four year high school, and that the Town authorize the School Committee to obtain and evaluate said estimates and plans.

On Substitute Motion, offered by Shigeo Okubo, It was Moved and Seconded: That the Town transfer from the Excess and Deficiency Account the sum of ten thousand dollars (\$10,000) to prepare plans and specifications:

1) to implement the recommendations of the "Report of the Visiting Committee Representing the Commission in Public Secondary Schools of the New England Association of Colleges and Secondary Schools" dated March 1969 and

2) to renovate Bird School so as to provide adequate facilities to house 350 students and furthermore, the Town authorize the Permanent Building Committee to be responsible and to report to the Town at the next annual meeting.

Motion was: *Defeated*, on Voice Vote.

On Challenge to the Voice Vote, a Standing Vote was taken.

Standing Vote: Yes 22; No 80.

On Amendment offered by Howard Scott, It was Moved and Seconded: That the words "Permanent Building Committee" be substituted for the words "School Committee".

Amendment was: *Defeated*.

It was *voted*: To Close Debate on Amendment.

It was *voted*: To Close Debate on this Article 5.

Main Motion was then *voted*.

There being no further business to come before this meeting, it was moved, seconded and VOTED that this Special Town Meeting be dissolved. The Moderator so declared at 11:20 P.M.
